

OUR COMMITMENT TO SUSTAINABLE BUILDING

As a premier supplier & designer of sustainable classical homes, **THE RIGHT HOME COMPANY** combines practical home sizes & styles with modern technologies that save both materials and energy.

By making use of ready to assemble components such as wall & roof Structural Insulating Panels (SIPs), we offer huge savings in on site time, building materials, construction labor and crew travel while reducing the probability of material damage, theft, and replacement costs. With less material waste, our packages save landfill disposal costs. By using properly installed SIPs and high-performance windows, the completed home will reduce energy costs by as much as 50%.

THE RIGHT HOME COMPANY PROCESS

With our dynamic team of experts with experience dating back to the early 70s, **THE RIGHT HOME COMPANY** focuses on high quality, functional, elegant, and energy efficient homes.

First, select from our catalogue of early 20th century designs. Next, we will evaluate your site, talk about minor interior space revisions and review the construction process. Knowing how important budgets and planning are, we will also help generate a useful budget and construction schedule.

Contact us to start the process of creating your dream **HOME** that has the **RIGHT** design, **RIGHT** size, is truly functional and highly efficient.

PLEASE ASK ABOUT OUR DESIGN SUPPORT

Connected garages (some via breezeways) may be available.

Ask about our help in creating a turnkey budget.

Minor changes to interior space may be possible.

Discuss foundations options, slab crawl spaces, full and walkout basements and Insulated Concrete Forms (ICFs)

We offer site plan advice based on your surveys and topographical information.

RIGHT-SIZED & SMART

OUR MISSION

To supply turn of the 20th century classic homes that are superbly designed and up to 1800 square feet. Our innovative and efficient shell packages are **RIGHT** sized, secure, and smart.

THE MILFORD

PERFECTLY EFFICIENT

Three bedrooms & 2 1/2 baths

A cute, compact cottage perfectly situated to urban infill or traditional neighborhoods. This home couples an open plan and efficient organization with a generous covered front porch. A first-floor master, situated at the back, makes it a good contender for aging in place design, while the two upstairs bedrooms make it flexible enough for a growing family. A first-floor office/study is a nice feature, that could also double as a nursery for those with new babies. Finally, a convenient side entrance that leads directly to a mudroom/laundry area ensures that all messes are contained in their proper place.

1527 sq ft
